Honda manufactures four engine models for its gas-powered lawn mowers at time of publication: the GCV 160, GXV 160, GCV 190 and GSV 190. All are air-cooled, four-stroke engines that use the splash oil lubrication system where a dipper scoops up oil from the oil pan and splashes a fine mist into the engine. The GXV 160 has a .69-quart oil capacity.

Honda's GC and GS engines use the world's first small engine internal timing belt, designed to last the lifetime of the engine. Small engine timing belts are usually external and are subject to wear caused by dirt. Honda's internal timing belt runs in oil, eliminating the need for conventional drive gears. This design:
