The correct engine designation on my 1990 4588 is EH700TI. The riser was actually functional but had a pin hole which is being re-welded. The turbo was toast. I ordered a new one from Anchorage Marine Parts. When tech disassembled there was a large heavy right angle bracket that was rusting away.

EH-700 02-12-2018,
09:58 AM. I'm getting
ready to change the oil,
water strainers, and fuel
filters on my 3870 for
the first time (for me).
The oil is really black
and I'm wondering if it
is worth looking into
running some extra stuff
through the crankcase
before I change the oil.
Has anybody done that
sort of thing?
